

Serial No. 10/808,650Response to December 15, 2005, Office Action -7-Docket No. 1948-4841**REMARKS****I. Status of the Claims**

Claims 1-17 are pending in the application.

By this Amendment, claims 1, 5, 10, 11, 14 and 15 have been amended, and claims 2, 6 and 16 have been cancelled. No new matter has been introduced by this Amendment.

II. Objection to the Specification:

The specification is objected to due to minor informalities.

Applicants have amended the specification in accordance with the Examiner's suggestions contained in the previous Office Action.

In view of the above, Applicants respectfully request the objection to the specification be withdrawn.

III. Allowable Subject Matter:

Applicants acknowledge the Examiner's statement that Claims 2-4, 6-9 and 11-15 have been objected to as being dependent upon a reject base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

IV. Objection to the Claims:

Claims 10, 11 and 14-16 have been objected to due to minor informalities.

Applicants have amended claims 10, 11, 14 and 15. More specifically, claims 10, 11 and 15 have been amended to avoid the antecedent basis problems indicated by the Examiner. Claim 14 has also been amended to remove the word "its" and to correct the reference to the "heat-radiating element" in order to make it more consistent with previous claims. Claim 16 has been canceled.

In view of the above, Applicants respectfully request the objections to claims 10, 11 and 14-16 be withdrawn.

67934 v1

Serial No. 10/808,650Response to December 15, 2005, Office Action -8-Docket No. 1948-4841**V. Double Patenting Rejection:**

Claims 1 and 5 have been rejected on the grounds of nonstatutory ~~obviousness~~ type double patenting as being unpatentable over claims 1, 8, and 10-11 of USP 6,821,143.

Applicants have amended claims 1 and 5 to include at least all of the limitations of claims 2 and 6. Claims 2 and 6 were previously indicated to contain allowable subject matter and are now cancelled. Applicant's believe that the limitations of claim 1 combined with claim 2 obviate the double patenting rejection since the limitations of claim 2 are not obvious in view of the patent.

In view of the above, Applicants respectfully request the double patenting rejection to claims 1 and 5 be withdrawn.

VI. Rejection Under 35 USC 103(a):

Claims 1, 5, 10 and 16-17 have been rejected under 35 USC 103(a) as being unpatentable over US 6,428,18 to Hochstein (hereafter, "Hochstein") in view of US Application Publication 2004/0264540 to Ieshia (hereafter, "Ieshia").

Applicants have amended independent claims 1 and 5 to include at least the limitations of dependent claims 2 and 6, respectively. Claims 2 and 6 were previously indicated to contain allowable subject matter. As a result, Applicants believe that independent claims 1 and 5 are now allowable. Dependant claims 10 and 16-17 depend from independent claims 1 and 5, and as a result, are also distinguishable over the cited references.

In view of the above, Applicants respectfully request the rejection to claims 1, 5, 10 and 16-17 be withdrawn.
